Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 October 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Detailed Action

This is the first Office Action corresponding to original filing. The application contains nine claims, which were amended by preliminary amendment filed Oct 22, 2003.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statement, which has been reviewed by the Examiner.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

The drawings are objected to because Fig 1 needs to show the hatched cross-section for rubber for the base 7, also the symbol for threads is missing; Fig 2 also needs to show the hatched cross-section for rubber for the base 7. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The

figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The abstract of the disclosure is objected to because it must be in a single paragraph with no more than 150 words; reference to figure to be published must be removed. Correction is required. See MPEP § 608.01(b).

The disclosure is objected to because of the following informalities: reference to the claims in the specification must be deleted. The final wordings and numbering of claims are likely to change during prosecution of the application.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 3-6, 8 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 lacks antecedent for “the locking rings”.

Claim 4 lacks antecedent for “the centre point” and the “centre holes of the integrated locking rings”

Claim 5 lacks antecedent for “the locking rings”.

Claim 6 is not clear as to what is being claimed. For the purpose of this action it is considered to be reciting the specific shape of the base.

Claim 8 lacks antecedent for “the opening in the polymer”.

Claim 9 is an improper method claim since no steps are recited; accordingly this claim cannot be searched.

Claim Rejections - 35 USC § 103

Claims 1 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over prior art admitted by Applicant in view of Ganter (US 2002/0008187 A1).

The instant claims are Jepson type claims, which results in an implied admission that the preamble (everything before “characterized”) is prior art.

The publication to Ganter shows a spindle secured into a polymer base in a concealed fashion with the surface of the base being shaped as a ball. See paragraphs 4 and 7 of Ganter.

Allowable Subject Matter

Claims 2 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 3, 4, 5 and 8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: none of the art of record discloses a leg support having two locking metal rings embedded in a polymeric base as recited in the claims, or having one single opening in the base having different diameters.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tobey (4,575,034), Morman (6,183,979), Andreoli et al. (US 2001/0019096 A1), and Burr (6,520,459 and 6,742,750) show legs received in bases.

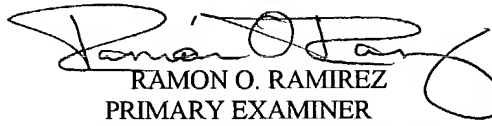

Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner **Ramírez** at telephone number (703) 308-0748. The examiner can be normally reached on Monday-Thursday and alternate Fridays.

The fax numbers for this Group are (703) 872-9306 (official papers), and (703) 308-3519 (unofficial papers).
